

THE DEPARTMENT OF ECONOMICS AT UNIV. CARLOS III DE MADRID

INVITES APPLICATIONS FOR THE FOLLOWING POSITION

Postdoctoral Research Fellowship in Economics

The research project "Current Tools and Policy Challenges in Electricity Markets" (ELECTRIC CHALLENGES) funded by the [European Research Council](#) (ERC) is recruiting one Postdoctoral Researcher with a PhD in Economics, with outstanding commitment to research and prior research experience in the areas of Energy and Environmental Economics and/or Empirical Industrial Organization. The project is located at [EnergyEcoLab](#), within the [Economics Department of Universidad Carlos III de Madrid](#) (UC3M). The position can be filled for one to three years, starting September 2020.

The Economics Department at Universidad Carlos III de Madrid has strong international ties, a widely recognized graduate school, and has been awarded special support as a Center of Excellence by the Spanish government.

Duties: successful candidates are expected to

- contribute to the activities of the research group in the form of research assistance and joint research comparable to a light teaching load
- participate in the activities of the research group (seminars, workshop, lunch meetings)
- further their own research agenda in the area of energy and environmental economics
- no teaching duties involved

Requirements: applicants should

- hold a PhD in economics (or be close to completing it) from a highly-ranked university
- have excellent qualifications as well as outstanding own research
- focus on empirical tools is highly welcome

Applications should include a resumé, two letters of recommendation and at least one recent research paper. The review of applications will continue until the position is filled. Applications should be sent to EnergyEconLab@gmail.com

Further details are available upon request from Principal Investigator, [Natalia Fabra](#) (natalia.fabra@uc3m.es)
