

EMEE 2021 Summer Workshop on "Empirical Methods in Energy Economics" for Doctoral Students and Early Career Researchers

July 7-8, 2021

The Summer Workshop on Empirical Methods in Energy Economics will be held online on **July 7-8, 2021**, from **3 pm to 8:30 pm CEST / 9 am to 2:30 pm EDT / 6 am to 11:30 am PDT**.

To foster a lively debate and a comprehensive exchange of ideas about new empirical research in energy economics, the 2021 summer workshop will include full presentations and shorter egg-timer sessions. All sessions are plenary (no concurrent presentations) and we invite active participations of attendants in the discussion.

The objective of the workshop is to have a friendly venue for doctoral students and early career researchers to present developments and applications of empirical methods in energy economics and receive feedback on their work. Details on previous workshops, along with information about joining the EMEE Network, can be found on the EMEE webpage (www.emee.ethz.ch).

There is no registration fee. In order to register to the EMEE Summer Workshop, please do so through the following link by the **5th of July**:
